Making NCs and BURs Gender Responsive

COP-23 (2017): The Subsidiary Body for Implementation, recommended a draft decision for consideration and adoption by the COP for establishment of a Gender Action Plan.

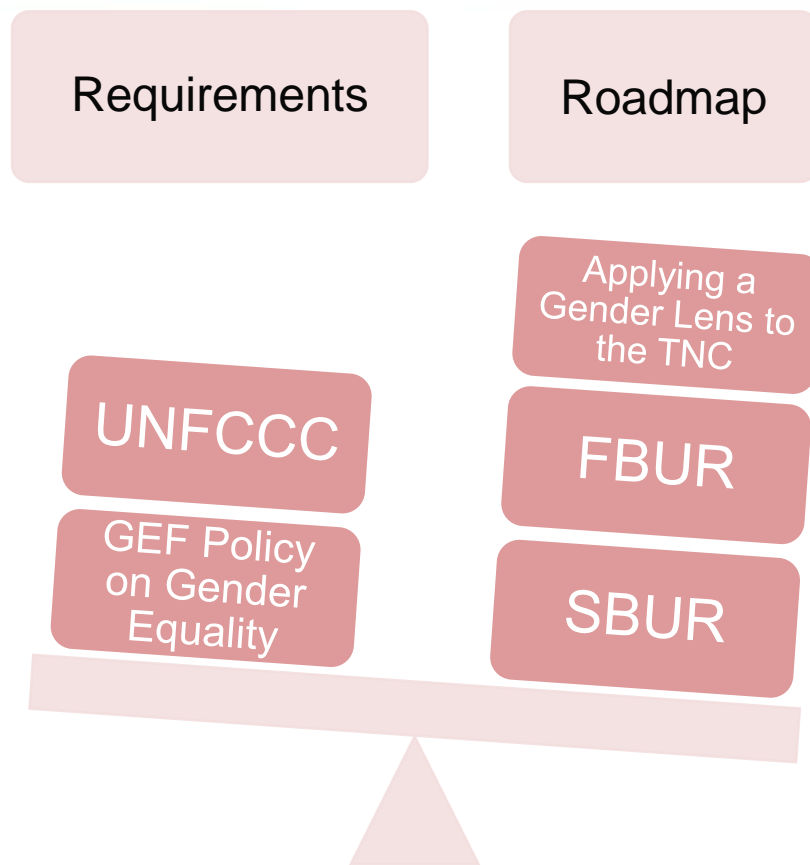

It includes activities in the following five priority areas:

- o A. Capacity-building, knowledge sharing and communication
- o B. Gender balance, participation and women's leadership
- o C. Coherence
- o D. Gender-responsive implementation and means of implementation
- o E. Monitoring and reporting

Making NCs and BURs Gender Responsive

MACEDONIAN CASE:

1. Starting from scratch
2. Good point of departure - Applying a Gender Lens to the TNC & Action Plan
3. Identified strategic entry points for CC adaptation and mitigation
4. Mapping exercise

Going from national to regional level

1. INCREASED TRANSPARENCY

Outcomes:

1. Gender Profiles of the Balkan Countries
2. Gender & Climate Change mainstreaming efforts coordinated
3. Draft **Balkans Action Plan** developed for integrating gender aspects responsiveness into the preparation of the UNFCCC reports
4. Steps to increase gender responsive MRV introduced
Example: Macedonian CBIT PIF - going beyond the requirements of consideration of gender issues in project activities and women's participation to forge sustained institutional capacity in this area and to develop a set of good practices that can be replicated in other countries. "
5. Effectiveness in implementation of the Action plan enhanced

Macedonia

Next Actions:

MAKE THE CASE:

- **Gender sensitive** NCs/BUR
- Allocate 5% of the project **budget** for gender specific activities
- Identify/develop country specific **Gender-sensitive criteria** and **indicators** that will enable monitoring of gender issues in priority areas
- Include gender aspect into socio-economic assessments of the priority areas

MAKE THE LINKS:

- Identify co-financing opportunities and coordinate with other projects (i.e. NAP/CBIT) on synergies and scope
- Identify/include NGOs network of practitioners in priority areas and conduct gender capacity building activities

Next Actions:

- **Balkans Action plan adopted** for integrating gender aspects responsiveness into the preparation of the Climate
- **South-South collaboration** in 2018 among Balkan countries enhances
- **Second regional meeting** to present the roadmaps/action plans elaborated and share lessons learnt.
- **Next NCs/BURs** reporting more transparent in terms of **who** is involved, whose views are represented, gender-differentiated risks and the types of support men and women need to influence climate adaptation, mitigation, policymaking and reporting.
- **Build capacity** of key stakeholders, including Governments and civil society, for gender analysis of key climate change issues that are reported on the NCs and BURs.
